

BROWN SUGAR BABY WASH + GO KIT

HOW TO USE

Brown Sugar Baby Detangling Conditioner

On soaking wet curls, apply the conditioner to sectioned hair. Detangle your curls with a brush or comb. Once thoroughly detangled, rinse out the conditioner.

Brown Sugar Baby Avocado Moisturizer

On soaking wet curls, apply a nickel-sized amount of moisturizer to each section of your curls.

Brown Sugar Baby Flaxseed Gel

Apply a nickel-sized amount of gel to each section of your curls. Finger-comb your curls to distribute the gel and allow curls to clump and define properly. Avoid using a comb or brush. Blow-dry or diffuse curls to properly set hair. Wear a bonnet at night to preserve your curls for 3-5 days.
