

CURLMIX®

Fresh

DEAR CURLMIXER®,

CurlMix® Fresh are limited edition kits that contain 3 - 4 new products, released monthly.

These are exclusive, never-before-seen products with high-quality natural and organic ingredients. These products won't be released as CurlMix® Mainstays. Subscribe to CurlMix® Fresh to make sure you're the first in line each month!

Pineapple Potion

FLAKE, LESS DEFINING KIT

HOW TO USE

Heavier Hold with Less Flakes

After you shampoo and condition your hair, add the Leave-In to your hair. This Leave-In is designed to work with the Pineapple Potion Gel, so we don't recommend pairing this with your Pure Flaxseed Gel. Add Pineapple Potion Gel on top of the Pineapple Potion Leave-In and use a diffuser to set your curls. Please use the CurlMix® Method for applying products. Use the Pineapple Potion Leave-In as Step 3 and the Pineapple Potion Gel as Step 4 in your routine.

Soft Hold with Less Flakes

After you shampoo and condition your hair, add the Leave-In to your hair. Add Pineapple Potion Custard on top of the Pineapple Potion Leave-In. Please use the CurlMix® Method for applying your product. You'll treat the Leave-In as Step 3 and the Custard as Step 4. You'll want to finger comb your curls and use a diffuser to dry. Your soft, fluffy curls won't be as defined as a typical gel, but you won't have a cast either. Ergo, Flake, LESS.
